

Ratchet Action Lever Clamps

The safe, fast, totally vibration-proof clamp

RAIL, FIXED JAW AND PRESSURE PLATE
... heat formed in one piece from cold drawn profiled steel – tempered and galvanized

HARDENED PRESSURE PLATE

RATCHET MECHANISM
... fast, precise, totally vibration-proof clamping.

SURFACE HARDENED, STEEL CAM ... exceptional wear with minimum friction

DROP FORGED SLIDING ARM
... electro-galvanized, tempered steel

POLY COATED RELEASE TRIGGER

POWDER COATED CLAMPING LEVER ... ergonomically shaped for comfort and leverage

ISO 9001 CERTIFIED

It's All About the Quality.

This clamp is essential in those applications where vibration causes a conventional clamp to “walk” ... the lever clamp stays firmly in place even when you're using power tools such as a router or jig saw.

In addition, the ratchet design is the fastest clamping action available and is perfect for applications where there is a need to install and release a number of clamps in a minimum of time ... a quick release button releases clamping pressure instantly.

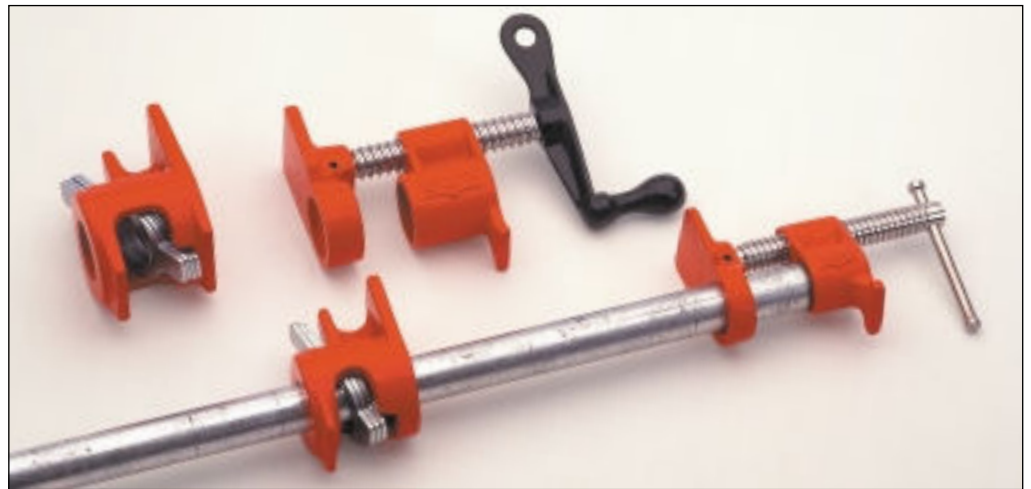

CATALOG NUMBER	NOMINAL THROAT DEPTH	NOMINAL OPENING	NOMINAL CLAMPING PRESSURE
LC-4	2 ³ / ₈ "	4"	400 LBS.
LC-6	3 ¹ / ₈ "	6"	500 LBS.
LC-8	4"	8"	770 LBS.
LC-10	4 ³ / ₄ "	10"	880 LBS.
LC-12	5 ¹ / ₂ "	12"	1110 LBS.
LC-20	5"	20"	1440 LBS.

Jamacc™ Pipe Clamp Fixtures

These clamps feature: plated spindles to prevent rust & corrosion; “clutch” action grips bar automatically; large clamping surface – positive grip; large handle – positive pressure.

CATALOG NUMBER	PIPE DIAMETER
PC-12	1/2"
PC-34	3/4"

pipe not included

Jamacc™ Steel Spring Clamps

CATALOG NUMBER	NOMINAL OPENING	MAXIMUM OPENING	CLAMPING PRESSURE
SC1-HT	1"	1 ¹ / ₄ "	33.0 LBS.
SC2-HT	2"	2 ¹ / ₄ "	49.5 LBS.
SC3-HT	3"	3 ³ / ₁₆ "	66.0 LBS.
SC4-HT	4"	5"	63.0 LBS.

These clamps feature: heavy duty springs for more pressure and longer life; nickel plating – won't rust or mark work piece; heavy duty vinyl tips and handles won't mar clamping surfaces.
