

The Award Winning Bessey PowerGrip™

BRIGHT-DRAWN, SPRING TEMPERED "I" BEAM STEEL RAIL ... minimizes flexing and bending ... won't ever rust.

QUICK RELEASE BUTTON ... for rapid movement of sliding arm.

GLASS-FIBER, REINFORCED POLYMER HOUSING AND HAND LEVER ... light in weight to reduce worker fatigue ... space-age tough for industrial use.

ISO 9001 CERTIFIED

It's All About the Quality.

PLASTIC PRESSURE CAPS ... non-marring, non-slip, glue-resistant pads protect your work - easily removed for use on metal.

OVER-SIZED, ACME THREAD ... for positive grip with minimum turns.

INNOVATIVE TWO-WAY HAND LEVER ... gives you the flexibility to operate the clamping action from either side of your work.

Light clamping pressure

... a simple squeeze on the handy two-way lever ... either from the rail side ... or the handle side of the clamp.

Maximum Pressure

... a hefty crank on the power handle

The Bessey PowerGrip™ with wood handle has plastic pressure pads for projects where surfaces need protection.
