# Bessey Variable Angle Strap Clamp™

**SPECIALLY WOVEN 23 FT. POLYESTER STRAP**
... for up to 1,100 lbs. tensile strength with minimal stretch ... *there's nothing on the market even close for the money.*

**CORNER CLIP WITH VARIO-ANGLE SWIVEL PADS**
... clamps any and all angles from $60^0$ to $180^0$ – four clips are included with the clamp. Extra clips can be purchased separately, six to a package.

**STRAP LOCK**
... easy to use mechanism releases and locks strap around awkward or large assemblies.

**GLASS-FIBER REINFORCED POLYAMID CASE AND CORNER BLOCKS**
... for light weight and high strength.

**STRAP WINDER**
... excess strap conveniently stored on spool – keeps strap tangle free and out from under foot.

Crank can be mounted on either side for left or right hand rewinding.

**ERGONOMIC WOOD HANDLE**
... is designed for maximum torque when cranking the strap tight ... like all Bessey clamps, large Acme thread means more power with less cranking.

**GEARED WINDER ALLOWS FOR PRECISE ADJUSTMENT**
... tightens strap evenly from both sides for distortion-free clamping.

| CATALOG NUMBER | STRAP WIDTH | STRAP LENGTH |

## The Bessey Variable Angle Strap Clamp

... has two distinguishing features that makes it more functional and convenient than the other generic strap clamps on the market. First, the unique, geared winder tightens the clamp evenly from both sides simultaneously ... ensuring distortion-free clamping. Second, the integral rewinding mechanism keeps the strap conveniently rolled-up and stored out of the way ... without twists and tangles. *Once you try the Bessey Variable Angle Strap Clamp ... other clamps just won't measure up!*
