

WS Angle Clamps

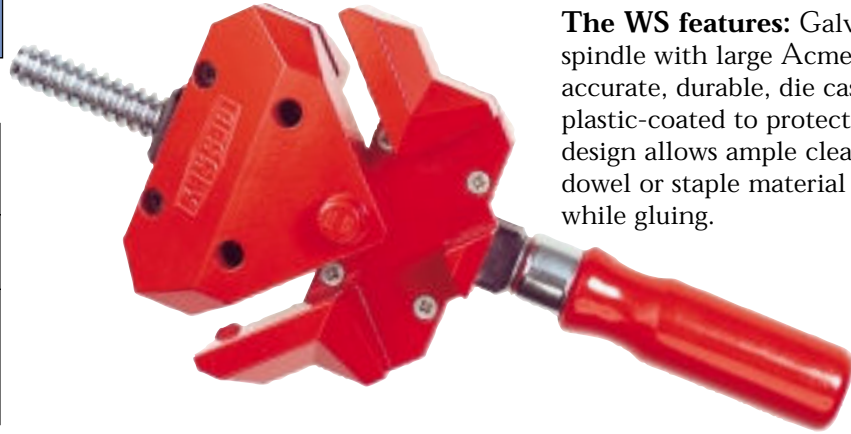

These versatile clamps are designed to always hold, fix and align material at a 90° angle and adjust automatically to variations in wood thickness. Their accuracy makes them ideal for many applications including cabinet work, furniture assembly, framing and their compact size fits easily into a tool box for site work.

The WS features: Galvanized spindle with large Acme thread; accurate, durable, die cast jaws are plastic-coated to protect work; open design allows ample clearance to screw, dowel or staple material together while gluing.

TK-6 - TABLE CLAMPS (PAIR)			

The Convenient Portable Vise Clamp

This clamp is a must for every toolbox as a portable vise or work hold-down fixture.

Highly versatile, the S-10 and S-15 are ideal for holding rounds, rectangles and odd-shaped objects. Its lightweight, sturdy construction makes this a great tool for home, cottage, hobby or recreational use ... and is particularly suited to holding delicate mechanical parts or assemblies.

The Vise Clamp features: a galvanized spindle with large Acme thread; non-marring, glue-resistant jaws; removable galvanized guide bars, which when removed allow jaws to swivel accommodating irregular shapes.

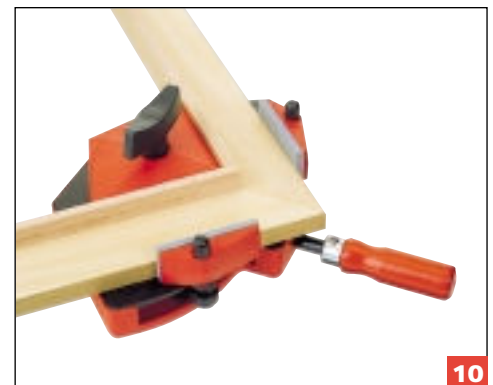

TK-6 table clamp ... holds clamp to work table - one pair included with the S-10 and S-15 Vise Clamps ... available as an accessory for WS Angle Clamps
